EDUCATION

Manipal Institute of Technology, Manipal B.Tech in Computer and Communication Engineering

GPA: 8.06

2023 – 2027

Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming (Java), Database Management Systems (MySQL), Operating Systems, Software Engineering, Information Security (Python)

EXPERIENCE

Software Engineering Intern | Odisha Hydro Power Corp(OHPC)

2026

- Designed and delivered 2 enterprise apps streamlining IT asset governance and secure document management for a state-owned power utility serving **10+ offices** and **7+ hydro power plants**.
- Developed a production-ready Enterprise Asset Management System with **immutable audit trails** and automated compliance reporting, **reducing manual audit effort by 60%** and asset **onboarding time by 45%**.
- Engineered secure, high-performance React + FastAPI apps with AES-256/RSA-4096 encryption, **response time <150 ms**, and Docker-based deployment pipelines.

PROJECTS

FindIt, Community Lost & Found Platform ([Live](#) 🌐 | [Repository](#) 📁)

2025

- Built a production-ready geospatial platform supporting **1,000+ location records**, **6+ user workflows**, and **<250 ms** map rendering using Google Maps clustering and PostGIS.
- Engineered a typed Supabase/PostgreSQL backend with **15+ relational tables**, geospatial indexing, and **15+ pgSQL** functions, enabling **<500ms location queries** with end-to-end type safety.
- Implemented real-time notifications, AI-powered filtering, dual-confirmation claim verification, and trust scoring, reducing false claim risk while deploying with **99.9% uptime** on Vercel.

NutriTrack, Comprehensive Diet based Healthcare System ([Live](#) 🌐 | [Repository](#) 📁)

2025

- Developed a full-stack healthcare platform with **JWT authentication**, **4 role-based dashboards**, and **20+ REST APIs** using React, Express, and MySQL.
- Optimized scheduling using **8+ MySQL stored procedures** and ACID transactions, reducing database conflicts by **40%** and improving query performance by **35%**.
- Built responsive dashboards supporting **1,000+ daily meal & exercise logs**, interactive analytics, achieving **90+ Lighthouse Performance**.

EduSecure, Cryptographically Secure Exam Paper Management ([Repository](#) 📁)

2025

- Developed a secure examination platform with 3 user roles, RSA-2048, AES-256, and **3-layer chaotic image scrambling**, protecting **100%** of examination papers.
- Engineered Logistic Map, Arnold Cat Map, Fisher-Yates, and hash-chained audit logs, delivering **100% tamper-evident** paper storage with cryptographic verification.
- Implemented time-locked access, center-specific authorization, and Paillier homomorphic encryption, reducing unauthorized access risk while supporting secure real-time distribution across **100+ simulated exam centers**.

SKILLS

Languages	C, Java, Python, JavaScript, HTML, CSS
Frameworks	React.js, Node.js, Express.js, FastAPI, Tailwind CSS
Databases	MySQL, MongoDB, Oracle SQL, PostgreSQL
Developer Tools	Git, GitHub, Docker, Vercel, Figma, Adobe PS
Core Skills	Problem Solving, Leadership, Team Collaboration, Adaptability

ACHIEVEMENTS / EXTRACURRICULAR

Organizing Committee | Revels 2025

- Coordinated logistics for **3,000+ attendees**, **15+ events**, **40+ vendors**, and **100+ volunteers**.
- Supervised a **12-member logistics team**, improving event turnaround by **25%** and achieving **95%+** schedule adherence.
- Managed operations across **multiple venues**, ensuring seamless event execution.

Core Committee | TechTatva 2025

- Directed a **20-member team** to execute **25+** installations and immersive exhibits.
- Coordinated fabrication and deployment for **30+** installations with **100%** on-time completion.
- Improved material utilization by **15%** through optimized procurement and planning.
